## Fall Into Flawless Skin

### **Hello, Beautiful Clients!**

As the crisp autumn air starts rolling in, it's official—fall is here, and that means it's *laser season*! If you've been holding off on treating your skin through the sunny summer months, now is the perfect time to refresh and renew. With summer behind us, it's safe to take advantage of laser treatments to help you achieve your skin goals.

At Suh Esthetics, we offer a variety of laser treatment options, each tailored to address your specific needs. Whether you want to target hyperpigmentation (like melasma), acne, scarring, skin tightening, wrinkle reduction, or you're simply looking for a skin refresh before a weekend event—we have you covered.

---

To ensure you're making the best choice for your skin, here are a few important questions to ask as you consider the options:

1. **What concerns you the most?**

Identifying your top skin concern is the first step in choosing the right treatment.

2. **How many treatments will I need?**

Some conditions require multiple sessions for optimal results, while others may only need one.

3. **What is the recovery time?**

Each treatment varies in downtime, and we want you to feel confident about your recovery process.

4. **What are the possible side effects?**

We'll discuss any potential risks, so you're fully informed before making a decision.

Listed below are a couple of laser treatments we offer and how they can benefit you:

- **Spectra Laser Toning:** Primarily used for treatment of hyperpigmentation but also helps improve overall skin health, reducing pore size, and reducing the appearance of fine lines.
- **LaseMD Ultra Laser:** Primarily used to reduce fine lines and wrinkles by stimulating new tissue growth. This device is also what we use for our hair restoration treatments with KeraFactor Serum.
- **Profractional:** Primarily used for skin tightening and reducing the appearance of fine lines, wrinkles, and scarring.

These are just a few options—there are plenty more to choose from! For more personalized advice, don't hesitate to reach out for a free consultation. I'm here to help you decide on the best treatment plan for your skin goals.

---

Cheers to glowing skin this fall!
